Technical Skills

Languages: C#, ASP.NET, VB.NET, MVC, ADO.NET, **SQL, PL/SQL**, HTML/CSS, JavaScript
Developer Tools: Visual Studio, Azure, IIS Server, TFS, Postman, ChatGpt, Co-Pilot **Git, Power BI, Excel**
Technologies/Frameworks: .NET Framework, Jira, GitLab, Confluence, **Entity Framework, LINQ, Bootstrap**
Documentation: SRS, Design Document, Scope, Project Schedule, **UTC, MOM, RTM**

Experience

Genpact India Private Limited

January 2026 – Present

Consultant (Software Engineer)

India

- Develop and maintain enterprise web applications using **ASP.NET and SQL Server**.
- Enhance backend services for the **Convera CCT system supporting Western Union**, improving system reliability and performance.
- Collaborate in an Agile environment using **Jira** and **Confluence** for issue tracking, sprint management, and documentation. Manage source control with **GitLab** and deploy applications on **IIS Server**, ensuring stable and secure production releases.
- Optimize database queries and scripts, reducing execution time from **60% to 30%** and improving overall system efficiency.

Delhi Integrated Multi-Modal Transit System Limited

January 2023 – January 2026

Assistant Engineer -IT

India

- Build and optimize code for seamless frontend-backend communication also integrating third-party services.
- Designed and implemented a **Bus Information System for HCBSTL, AVLS, DTC Cluster** enabling real-time tracking, intelligent route optimization, fleet management and a scheduling interface for enhanced commuter experience.
- Deploy, monitor and manage applications on **IIS Server** ensuring performance and security best practices.
- Proactively collaborate with cross-functional teams, adhering to **Agile and SDLC methodologies** while efficiently managing and optimizing **TFS/Azure** workflows to enhance productivity and seamless project execution.

Projects

Haryana City Bus Services Ltd. (HCBSTL) | DTC | KSRTC | Asp.Net, SQL

January 2024

- Designed and developed** a scalable project architecture enabling seamless integration with hardware systems.
- Optimized** real-time bus live location tracking using Angular, Co-Pilot and .Net, enhancing processing efficiency.
- Developed** API for secure and efficient data exchange between the system and cloud services.
- Integrated** Azure cloud solutions for enhanced system performance, scalability and security.

SGPGI Telemedicine | Full-Stack Development, Python, Django

March 2020

- Spearheaded** the development of an intuitive **online appointment system** for a large-scale medical web application.
- Enhanced** user experience by integrating real-time appointment scheduling and seamless medical record management.
- Implemented** robust security measures, ensuring secure authentication and data handling for patient confidentiality.

Education

GL Bajaj ITM

September 2020 – May 2023

B.Tech in CSE — 85%

Greater Noida, India

Government Polytechnic College

July 2017 – August 2020

Polytechnic in CSE — 87%

Lucknow, India

Government Inter College

July 2015 – June 2017

12th in PCM — 80%

Prayagraj, India

Achievement / Extracurricular

- Secured **3rd position** in the Hackathon organized by JIMS College, Greater Noida.
- Earned the **Diploma Gold Medallist** title for outstanding academic achievement (2017-2020).
- Received the **Outstanding Performance Award** during the Softpro Internship (May 2019 - August 2019).
- Published research paper** in IEEE on **Image Processing-Based Intelligent Mini Robotic Face Recognition System**.
- Received the **Appreciation Award** from the QA team at DIMTS for exceptional contributions to software quality and performance.
